

How should you do to arrive to our factory?

- 1. When you are in Lugo, you should take the road LU-612 (to Portomarín). In the Kilometer 12 you will be in a little town called Lousada.**
- 2. LOUSADA. You should go straight on the town and before watching the traffic sign which indicates the end of the town, you must turn right (100 meters from Lousada to this new road).**
- 3. After turning, you will see a new sign that has written these two towns: GROLOS and SANTA EUXEA, so you should turn left and go on by this road (1500 meters).**
- 4. You should go straight on and then you will see another sign where the name of San Martiño's town is written (After turning right, the new road will be very narrow) (800 meters from San Martiño to our factory).**
- 5. Over 100 meters, the road is divided. Turn left (asphalted road).**
- 6. You will arrive to the little town "San Martiño". When you will be crossing it, you will see a house where the road seems it's going to finish. You should turn right and go on.**
- 7. Then you will watch the factory painted in cream colour. Go on the road and you will arrive.**
